## COMMUNITIES

I love participating in developer communities, I am an administrator of different groups.

- **SEVILLADOTNET**  
Group of .NET technologies users in Seville.  
[www.meetup.com/SevillaDotNet](http://www.meetup.com/SevillaDotNet)
- **SXDG**  
Xamarin developers group in Seville.  
[www.meetup.com/SevillaXamarinDevelopers](http://www.meetup.com/SevillaXamarinDevelopers)

## WORK EXPERIENCE

- **MICROSOFT / DIC 2018**  
**Senior Software Engineer**
  - Lead the progress in UI APIs by implementing options to draw gradients, draw shapes, be able to clip views, etc. These new features had a high increase in the satisfaction results in customer surveys.
  - Created new controls like RefreshView to refresh content by Pulling to Refresh among others.
  - Created different APIs in the Core of .NET MAUI such as the new API for life cycle events or more UI APIs such as shadow management, add new cross platform drawing API, etc.
  - Lead an experimental project to create [drawn controls](#) with support for Cupertino, Material and Fluent design.
  - Help in the implementation of different options related to asynchronous communication and the improvement of the communication of a distributed team.
- **PLAIN CONCEPTS / AGO 2015 – DIC 2018**  
**Software Engineer**
  - Responsible for managing the mobile development team.
  - I collaborated in the development of the Microsoft mobile demos using Xamarin.Forms for their Build or Connect events among others. We can list demos like [BikeSharing](#), [SmartHotel360](#), etc.
  - Lead the architecture and creation of the first external [Xamarin.Forms backend](#) to add support to Linux using GtkSharp.
  - Collaboration to add WPF support in Xamarin.Forms.
  - Collaboration with the Visual Studio team to create different extensions such as Git support extension.
  - I did the development of a small UI framework in a [game engine](#) rendering on different platforms using OpenGL, DirectX, etc.
- **BRAVENT / NOV 2014 - AGO 2015**  
**Mobile Team Lead**
  - Responsible for creating and managing a mobile development team.
  - In a few months it was possible to have multiple Xamarin certifications and become a Microsoft partner in the area.
  - Development of various cross platform applications for banks, etc.
  - Development of some important Apps for Microsoft in the Store as the official [Real Madrid FC App](#).
- **ICINETIC TIC / DIC 2012 - OCT 2014**  
**Software Engineer**
  - I made several mobile applications for Windows Phone and Windows Store applications for diverse customers such as radio chains, clothing stores, etc.
  - Participate in the creation of [Windows Phone App Studio](#), a Microsoft tool that allowed creating Apps for Windows Phone with a drag & drop editor but also generating the code. It helped Microsoft to increase the number of Apps in the Store.
- **IDESARROLLA / JUN 2009 – DIC 2012**  
**Software Engineer** Developing mainly with .NET technologies such as WPF, Silverlight or Windows Phone although I also did some development with Objective-C for iOS in this period.

## OPEN SOURCE

Open Source projects are a great way to collaborate, learn and help others.

- Xamarin.Forms GoodLooking UI

Xamarin.Forms good looking samples replicating some existing Apps or designs.

## EDUCATION

Superior Technician in Management of Computer Systems / SEP 2007 - JUN 2009

Centro Educativo Altair, Sevilla, Spain

## SKILLS

- .NET
- .NET MAUI, XAMARIN
- WPF, UWP
- AZURE
- WINUI
- FLUTTER

## LANGUAGES

- SPANISH
- ENGLISH

## ACHIEVEMENTS

- MICROSOFT ACTIVE PROFESSIONAL 2014
- XAMARIN MVP
- MICROSOFT MVP 2014-2019  
MVP Profile: <https://mvp.microsoft.com/es-es/mvp/Javier%20Suarez-5001000>
